Table of Contents

Table of Tables

1.   Introduction

Department of Veterans Affairs (VA) has a need to improve the efficiencies of the outpatient medical scheduling processes through improved visibility of information. VA has created a comprehensive scheduling solution to modernize the Veterans Health Information Systems and Technology Architecture (VistA) Scheduling (VS) product.

1.1.   Purpose

The purpose of this document is to provide a summary of the enhancements and defect corrections that make up VS Graphical User Interface (GUI) Release 1.7.39.1. The release software package is comprised of the following:

- VS GUI application 1.7.39.1
- VistA M patch SD*5.3*839

1.2.   Audience

This document targets the administrators and users of the VistA Scheduling package.

2.   This Release

Please see Features and Functionality for a summary of the enhancements and defect corrections implemented with VS GUI Release 1.7.39.1 and VistA patch SD*5.3*839.

3.   Features and Functionality

The following subsections describe the features included in the VS GUI 1.7.39.1 package and VistA patch SD*5.3*839.

3.1.   Enhancements Implemented and Defects Fixes

Table 1 lists the enhancements implemented and defects corrected in VS GUI Release 1.7.39.1 and VistA patch SD*5.3*839. The work item ID is the Jira issue number.

Table 1: Enhancements and Defects Fixes

Work Item ID	Summary of Change
VSE-4875	VistA: Modify SDESAPPTDATA routine to correct a problem with the DFN being set to null
VSE-5215	Update GUI to always release request from context when switching patients
VSE-5011	VistA: Modify SDES GET APPT REQ BY PAT ALL to accept a date range for Appt Req Create Date
VSE-5013	VistA: Modify SDES GET COMP/PEN 2507 to format all dates in ISO 8601 format

4.   User Documentation

The documentation distributed with VS GUI Release 1.7.39.1 is available for download from the VA Software Document Library (VDL).

5.   Known Issues

All known issues resolved by this release were documented in ServiceNow tickets and/or Jira issues as part of the ongoing, post-warranty, sustainment effort. Appropriate issues, workarounds, and step by step resolutions are documented in Knowledge Base articles and included in the searchable ServiceNow Knowledge Base hosted by the VA Enterprise Service Desk (ESD).
